

OPPORTUNITY KNOCKS!

CHIEF ENGINEER

July 29, 2010

The Opportunity:

The King and Prince Beach & Golf Resort has an opening for a Chief Engineer of Maintenance with a proven track record of supervising the maintenance operation of a multi-unit full service Resort facility.

The Requirements:

The successful candidate for the **Chief Engineer** must be at least 21 years of age with a valid Georgia driver's license. Must possess a high school diploma or its equivalent, a significant combination of vocational education, apprentice training, in-plant training, on-the-job training and at least two years experience in a supervisory position. Must be able to lift up to and in excess of 50 pounds. Possess sufficient mechanical skills to inspect and make repairs to refrigeration, plumbing, water treatment, HVAC equipment, ice machines, swimming pools, lighting, food service equipment, generators, boilers, electrical systems, roofs and experience in construction. Must be able to develop a preventative maintenance program and possess good project management skills including bidding, scheduling and coordination. Must be able to develop and implement the operational and capital budget for the Maintenance Department. Must possess all necessary professional certification required to perform the above stated tasks. Must be a self-starter, be able to work unsupervised and have the ability to supervisor, hire and evaluate employees and bring a track record of demonstrated leadership qualities.
